

# 群準還原卡 BIOS 修改項目

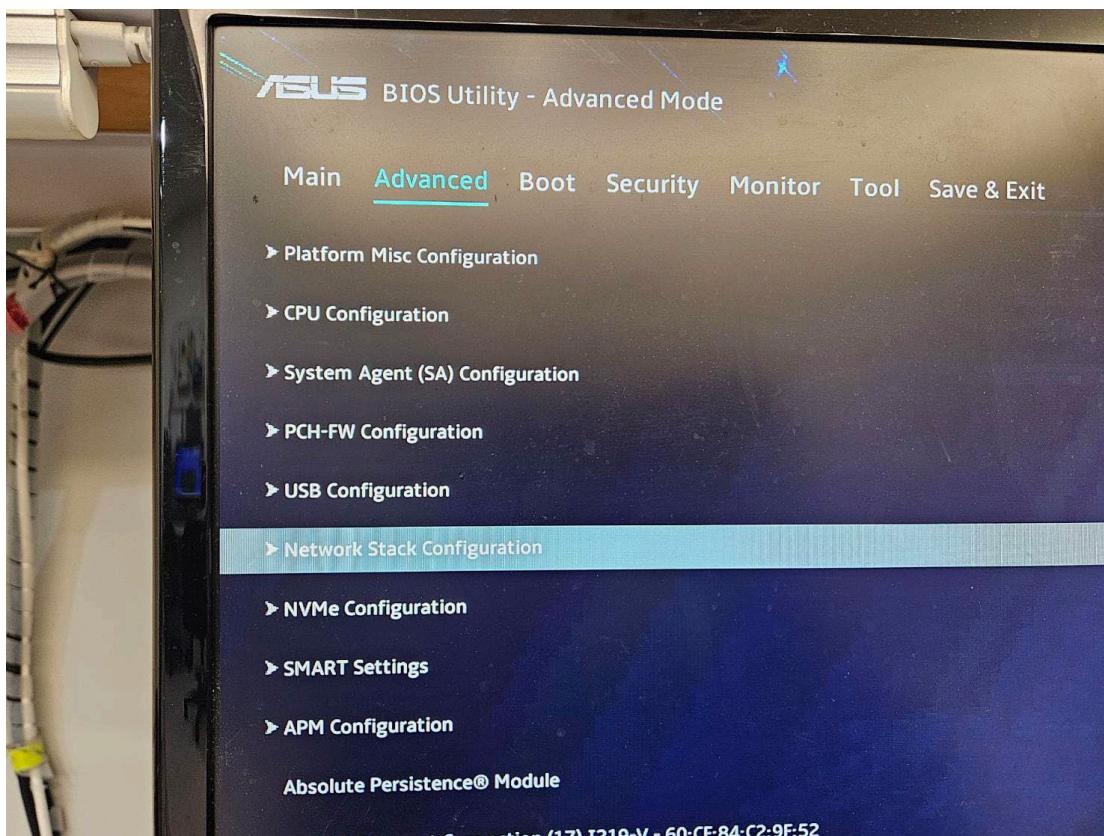

首先先到 Advanced 找到 Storage Interface

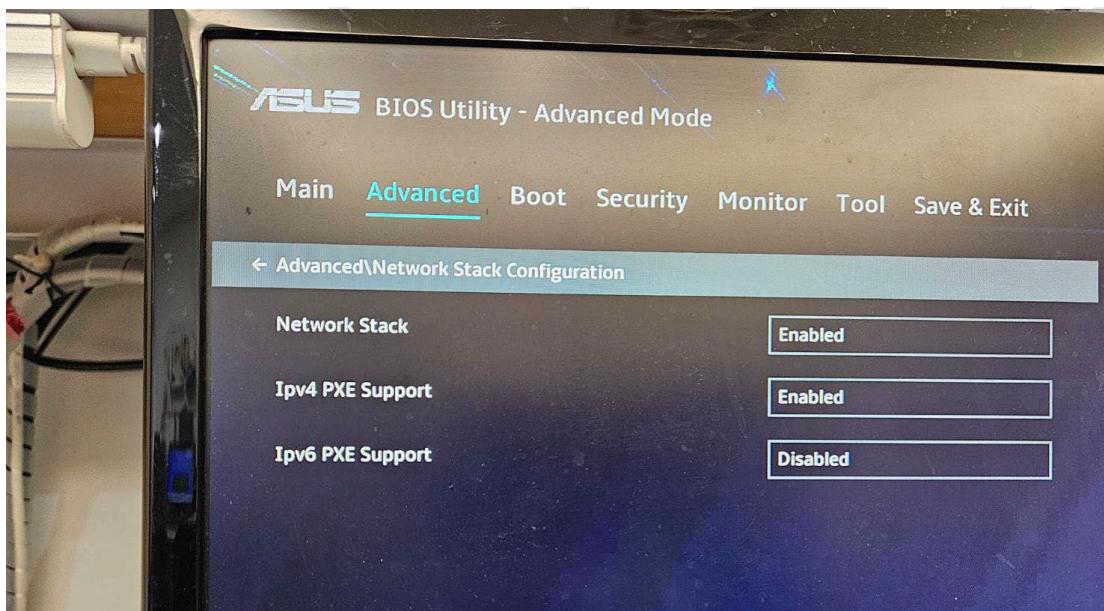

進去後，確認你的 Sata Opration 是否跟其他台學生機一樣，如 AHCI

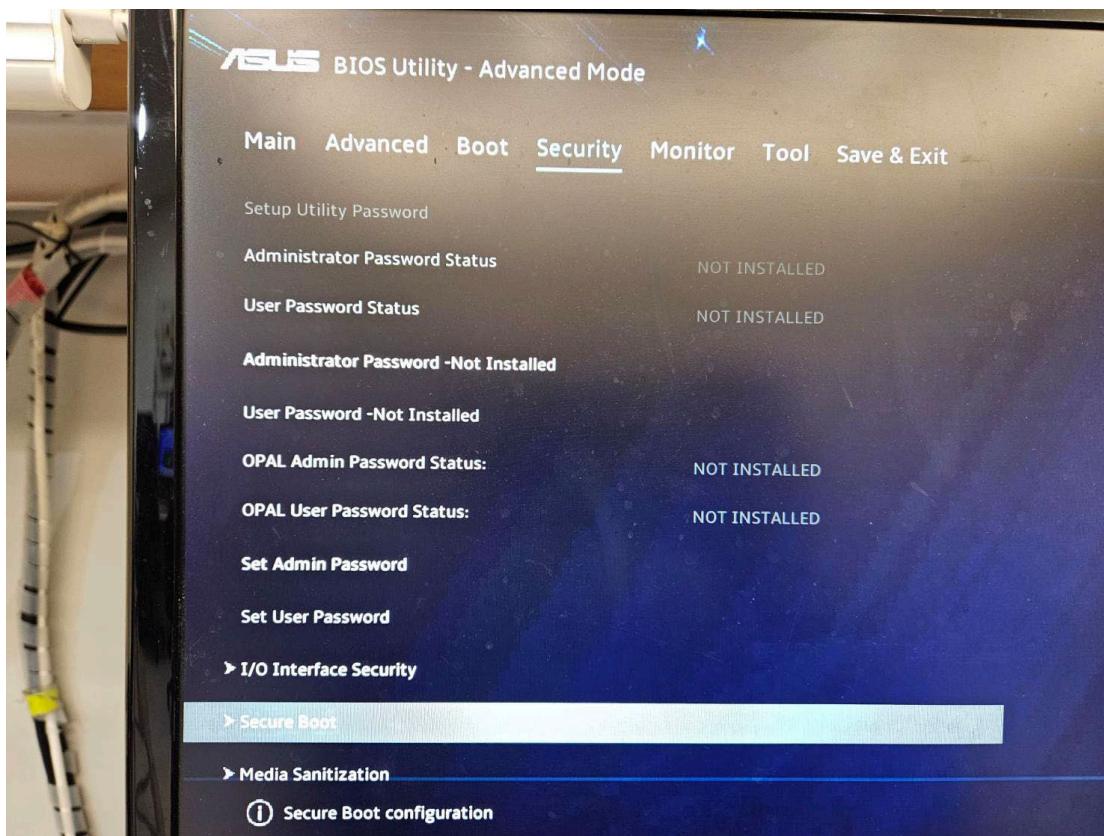

之後出來選到 Network Stack Configuration 這邊

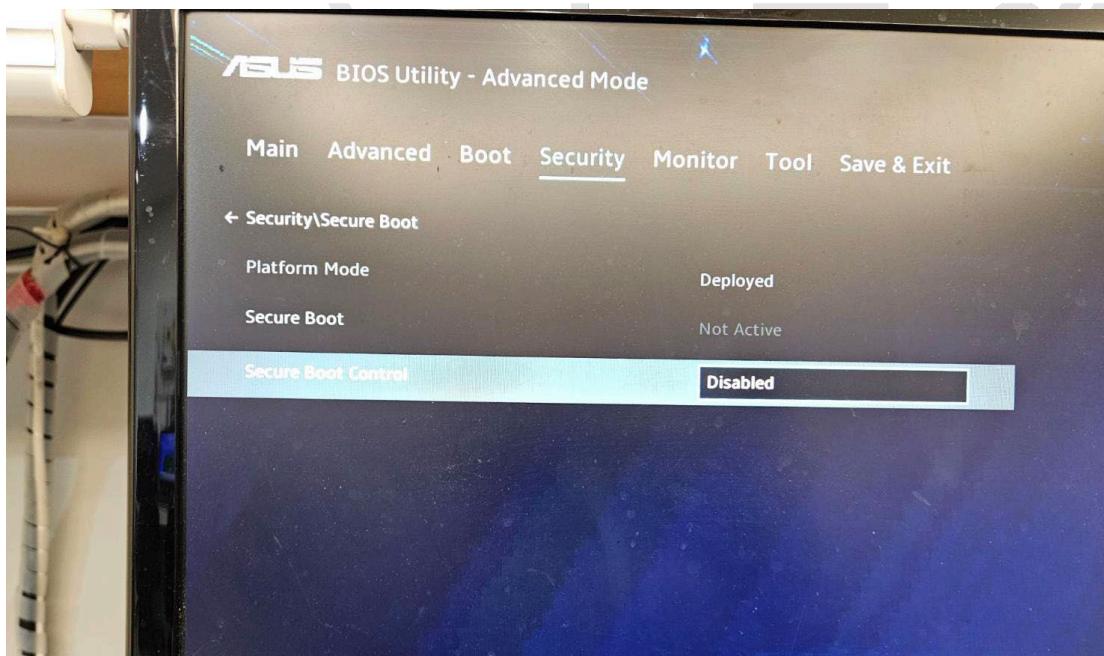

進去把 Network Stack 跟 Ipv4 PXE Support 都 Enabled

之後跳出來切到 Security 選單，找到 Secure Boot(比較後面一點)

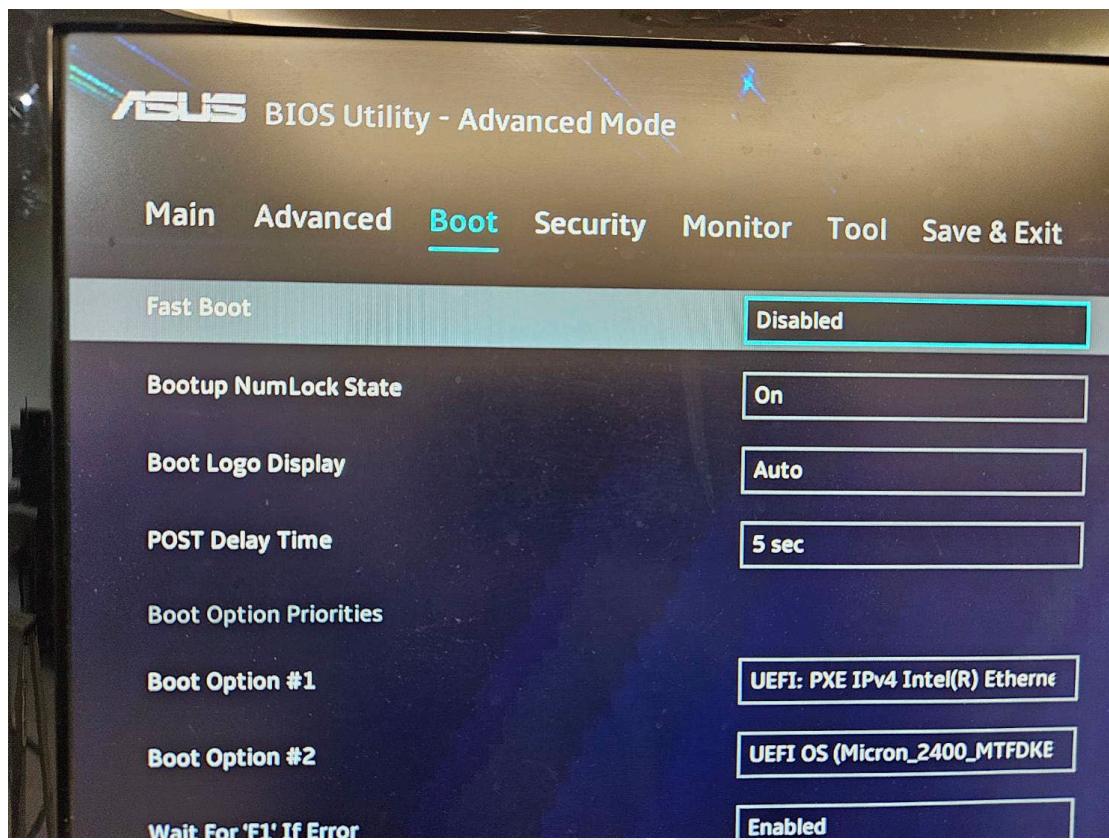

把 Security Boot Control 把它改為 Disabled

完成後跳出來選到 Boot 選單，把 Fast boot 修改為 Disabled

改完後按 F10 保存重開機即可

以上，如有任何問題可向本公司詢問購買。官方 Line : @kunlex
